

2016 Trust Women General Election Voter Guide

Trust Women is a 501(c)3 and neither endorses nor opposes any candidates.

We mailed a candidate questionnaire to each candidate running for office in the Oklahoma state general elections, regardless of affiliation to any party or organization.

The answers provided do not denote any affiliation or endorsement by Trust Women. A candidate's choice to participate in our questionnaire does not signify affiliation or endorsement.

The only endorsements we have chosen to include with our voter guide are those given by Oklahomans for Life, an anti-choice organization.

Below you will find a key to the answers provided as well as the questions as submitted to each candidate. Yes and No answers as well as any additional comments about questions are included in this document. **YES IS CONSIDERED A FAVORABLE ANSWER.**

The voter guide itself is listed according to position and numerically by district per each position. So, if you were looking for Oklahoma Senators in District 16, you would first look in the section of Oklahoma Senate and follow down numerical order until you find District 16.

We hope you find the information below helpful in your decisions for the general election.

Key:	
Y	Yes
N	No
U	Undecided
-	No answer
?	Candidate had a question they addressed with a comment
OK 4 Life	Oklahomans for Life
VRA	Voting record is anti-choice
****VRP****	Voting record is pro-choice
VRM	Voting record is mixed

2016 Trust Women General Election Candidate Questionnaire

These are the questions asked of the candidates. Each candidate had the opportunity to answer each question with a yes (Y) or (N) and provide further comment to explain their stance for each question.

1. Do you support the following
 - a. Access to a range of FDA-approved birth control regardless of age, sex or income?
 - b. Access to emergency contraceptives in line with federal regulations?
 - c. Private and state funded insurance coverage of birth control?
 - d. Access to medically necessary abortions to protect the life of the woman?
 - e. Access to abortion in cases of rape or incest?
 - f. Access to abortion to protect the health of the woman, including her mental health?
 - g. A woman's right to privacy in making her own medical choices, including those about her reproductive health care?

2. Do you support Medicaid expansion for the state?

3. Would you support the use of Medicaid state funds to cover abortion services?

4. When Colorado lawmakers funded programs that made contraception more readily available to the women of Colorado, the abortion rate in that state fell by 42% in the teen age range, and birth rates among many vulnerable populations dropped dramatically. Would you support the expansion of funding contraceptive options, especially long acting reversible contraceptives, through the state?

5. Abortion providers face intimidation, bullying, stalking and violence by anti-choice extremists on a daily basis in this country, simply for operating legal and safe health care businesses. Would you support measures to protect the privacy, space and safety of those who provide legal abortion services that would classify these actions by extremists as a form of domestic terrorism?

6. Do you think any of the following place an "undue burden" on any woman seeking an abortion:
 - a. Denial of insurance coverage through state or private insurance for abortion services?
 - b. Mandatory waiting periods before accessing abortion services?
 - c. Denial of telemedicine options in cases of medical abortion (i.e. medication abortion)?
 - d. Dual parental consent for teens seeking abortion care?

YES IS CONSIDERED A FAVORABLE ANSWER

				1a.Y	1b.Y	1c.Y	1d.Y	1e.Y	1f.Y	1g.Y	2.Y	3.Y	4.Y	5.Y	6a.-	6b.-	6c.-	6d.-
JACOB ROSECRANTS	OK House	46	Dem	<p>1a-g. Y - I am Catholic, and as such, I am not for abortions in my own life and family. That said, I firmly believe that the decision should be made by the woman, NOT a legislator.</p> <p>2. Y - I indeed support Medicaid expansion. This is an issue overlooked in our state. Our current legislators have failed to provide for the citizens of Oklahoma. Part of that is denying Oklahomans full access to the benefits of the Affordable Care Act.</p> <p>3. Y - Any legislation to help women have access to safe abortions in the state of Oklahoma will be a hard-fought battle. I will support legislation that allows abortions to be covered under Medicaid. Oklahoma's budget crisis has hit all state-funded medical facilities. The budget shortfall also has helped underfund hundreds of rural hospitals.</p> <p>4. Y - As a firm supporter of Planned Parenthood, I support easy access to contraceptives. Funding programs such as Planned Parenthood gives low-income families a chance to prepare and plan for the future of their children.</p> <p>5. Y - Abortion is a medical practice, like all other forms of medical treatment, abortion is a decision made between a patient and their physician. It should be protected and safeguarded. All forms of harassment should be criminalized, abortion-related instances included. All physicians and medical personnel should feel safe when clocking into work. The health and well-being of their patients depend on it. I would support legislation to protect and safeguard abortion providers.</p>

				<p>1g. Y - Lack of insurance coverage for birth control is a form of sexual discrimination since women are the users of contraceptives. Abortion is a constitutionally protected right.</p> <p>2. Y - If we can accept federal funds for natural disasters (floods, tornadoes,...) why can't we accept federal funds to protect our citizen's health?</p> <p>4. Y - I was a high school guidance counselor for 13 years. I saw many young women's hopes for a future go off the rails when they feared /realized an unwanted pregnancy. Contraceptive options would be a realistic approach to reversing the situation.</p> <p>5. N - Yes, I support measures to protect the privacy, space and safety of those who provide legal abortion services, but not by classifying these actions as a form of domestic terrorism. It may be stalking would be more descriptive.</p> <p>6b. Y - Ultrasounds</p> <p>6d. Y - Sometimes not possible</p>

Y - Reproductive health should be a discussion between the doctor and the individuals involved in making the decisions. Insurance companies have too much power to decide the outcome of medical procedures. Doctors spend many years in college to be able to make the tough decisions. Insurance companies should not be allowed to use "policies" to deny a medically sound procedure.</p> <p>2. Y - It is important for tax payers to understand, the federal government has an allotted amount for each state for medical funding support. Oklahoma legislature has failed to accept these funds out of pride. It is time to set aside the notion that it is shameful to accept these tax dollars Oklahomans send to the government.</p> <p>3. Y - I view abortion as a medical procedure. Therefore it is acceptable to use Medicaid funding for those not able to afford private insurance.</p> <p>4. Y - I support all forms of education, which includes reproductive health education. The more information people are allowed to have means a better educated a decision is that they are able to make.</p> <p>5. Y - Merriam-Webster's definition of terrorism: The use of violent acts to frighten the people in an area as a way of trying to achieve a political goal. By definition the extremists described in the question should be prosecuted as terrorists.</p> <p>6a-d. Y - The decision to have an abortion is not an easy one. Denial of coverage, mandatory waiting periods, and dual parental consent clauses harm more than dissuading a woman to not have the abortion. Denial of coverage and mandatory waiting periods include a woman having a miscarriage, which could cause loss of the woman's life. Dual parent consent is more about control than making an informed decision. It does not give body autonomy to the young woman and indicates that her body is not hers, it is her parents to do with as they see fit.</p>

Medicaid expansion would give many of those below the poverty line access to medical care. The Obamacare system is obviously flawed, but there is an option to help people now. And there are few negative consequences for accepting the funding. The sooner Oklahoma takes the offer, the more Medicaid costs that the federal government will assume.</p> <p>4. Y - I would also support standardized sex education for all students in Oklahoma, which I believe would also reduce birth rates among vulnerable populations.</p> <p>5. Y - The stories I've heard from those working within in abortion clinics are harrowing. Patients deserve ta right to privacy and safety, for sure. But I believe this is also important for those who work in abortion clinics day after day.</p> <p>6d. Y - Trying to guilt women into a certain decision about an abortion can be extremely emotionally damaging. The patient's mental health must be considered.</p>
