

## 2018 Trust Women Washington General Election Voter Guide

**Trust Women's Vision:** All women will have access to health care, including abortions, regardless of where they live or their ability to pay.

In July, we mailed a candidate questionnaire to each candidate running for office in the Washington state general elections, regardless of affiliation to any party or organization.

Below you will find the questions asked to each of the candidates, as well as a key to the **Voter Guide** itself. “Yes” and “no” answers, as well as any additional comments about questions asked, are included in this document.

The voter guide is listed according to position and by district in numerical order per each position. For example; if you are looking for Washington State Representatives in district 42, you would first look in the section of Washington State Representatives and follow the chart down numerically until you find District 42.

We hope you find the information in the 2018 Trust Women Voter Guide helpful in your decisions for the General Election on November 6, 2018.

Post Office Box 3222 | Wichita, Kansas 67201 | 316.425.3215 | [www.trustwomenpac.org](http://www.trustwomenpac.org)

Trust Women PAC is not authorized by any candidate or candidate committee

Below, you will find the answers asked to each of the Washington primary election candidates.

- 1.) Do you support a woman's right to safe, legal abortion care?
- 2.) Would you oppose legislation that attempts to restrict a woman's constitutional right to make her own medical decisions, including her decision to have an abortion?
- 3.) Would you support legislation that protects women, doctors and other reproductive health providers from harassment, threats, violence, and intimidation?
- 4.) Do you support women's access to all FDA-approved birth control, regardless of age, religion, geography, or income? (FDA-approved forms of birth control include, but are not limited to: intrauterine devices (IUDs), Nexplanon, birth control shot (Depo-Provera), birth control pills, hormonal patches, vaginal rings (NuvaRing))

More human life is lost each year through abortion than by all other causes of death combined. In my opinion, this is an epidemic. 3. I believe that the abortion clinic is not the place to address this epidemic. I believe more resources and focus needs to be placed on preventing unwanted pregnancies. a. better education b. better access to contraception c. better support to women in crisis

As a member of the leadership team of the Columbia Gorge Women's Action Network, I will continue to encourage and train women to run for office and participate in voter education and outreach efforts. I believe in a universal health care system and economic equality, both of which will guarantee equal access to reproductive services. I support protection of women's healthcare decisions from government, corporate, and religious interference. I plan to support legislation to ensure fair employment practices, child care services, and universal health care, and will promote evidence-based solutions to homelessness, domestic violence and abuse.

James Dillon	State Rep Pos. 1	Leg. Dist. 47	Indep		Y	Y	Y	Y	I am pleased to respond to your candidate questionnaire. Women have their own self right to control their life, their outcomes and exist within their decisions. Whether that involves career, educations, cosmetic alterations and yes, reproductive decision. In this 21st century there are many choices available - birth control, condoms and including cessation of prenanacy. ALL are to be fully protected and made available. Public and legislative (all state and federal bodies are male dominated) to cease abortion are fallacious. They are fallacious in that trying to legislatively control - or in the court of public opinion - that option can be controlled is silly. Many OBGYN will simply not comply. Worse "backyard" perhaps Mother dangerous techniques will always remain available. Birth controls, women's reproduction are not easy decisions. I will step aside from the ideological, political, religious arguments here. Will only state a women's right of equality and choice in her decision authority - without inane restrictions.

Vandana Slatter*	State Rep Pos. 1	Leg. Dist. 48	Dem	VRP					
Amy Walen	State Rep Pos. 2	Leg. Dist. 48	Dem		Y	Y	Y	Y	I have been a consistent supporter of a woman's right to choose and to have the full rane of reproductive choices available to her. The idea that government should involve itself in what happens to a person's body is the antithesis of freedom, and is a relic of times passed when women were treated as property. Abortion is a part of comprehensive health care, and health care is a fundamental human right for all people, and must be protected as such. I have contributed by endorsing and financially supporting candidates and agencies that protect the rights of women and girls to access and afford legal abortion.

Steve Hoffman	U.S. Senator	United States	Freedom Socialist		Y	Y	Y	Y	3.) I support prosecution of anti-abortion vigilantes under civil rights laws and normal criminal laws when these apply. I would support congressional hearings to publicly investigate assaults against clinics, patients, and staff. I don't support secret FBI investigations because the FBI cannot be trusted to act in the interest of women. Nor do I support measures to prohibit protest within a designated distance of clinics, because laws restricting free speech and the right to protest will always be used against feminists, unionists, demonstrators against the far right, etc. A strong mass movement is the best defense against right-wing anti-abortion crusaders. 4.)I believe that a woman's decisions about her reproductive life are her own to make. This is not only my personal belief but also the position of my party, the Freedom Socialist Party, and is not subject to change or bargaining away! This basic human right is crucial for all women, but especially poor women, immigrants, and women of color. I am not just an advocate but also an activist for reproductive freedom, most recently as part of a counter-protest against a defund PP rally called by Joey Gibson and Patriot Prayer on June 9 in Kent, Wash.

										Additional comments: We must protect reproductive health services for the welfare and health of America. Opponents of women's health rights can pose a tough battle, but it needs to be clear that these services do so much for the health and of our country. I will make it clear to Republicans who bring up a bill to revoke reproductive health rights that the commitment to sexual health education, advocacy, and clinical services are a vital piece of our country and should not be overshadowed by the far right's will to impede on women's health.
