WICHITA, KS – Julie Burkhart, founder & CEO of Trust Women, made the following statement regarding the death of Supreme Court Justice Ruth Bader Ginsburg:

“Justice Ginsburg’s death is a truly devastating loss for the country and the world. Justice Ginsburg’s courageous and pioneering work for gender equality changed countless lives for the better and brought America that much closer to achieving its promise of equality and justice for all. Her transformative legacy will live on in all of us continuing the fight for equal rights and reproductive justice. Tonight, we are grief-stricken, but resolute. In her honor, this fight will go on. On behalf of Trust Women’s patients, supporters, and staff, we send our deepest condolences to Justice Ginsburg’s family and loved-ones — and reaffirm our commitment to her life’s work: a stronger, more just and equitable America for everyone. Together, we will march, we will organize, and we will vote for the future Ruth Bader Ginsburg helped build.”
